Session 6A: CAD Frameworks
Moderators:
P. van der Wolf, Delft University of Technology, The Netherlands
R. Ernst, Technical University of Braunschweig, Germany

The first two papers in this Session discuss CAD framework support for configuring and executing design projects. The last paper presents results of coupling two complementary CAD frameworks.

Controlling Change Propagation and Project Policies in IC Design
Y. Mathys, S. Soudagar and M. Morgan

Generic Design Flows for Project Management in A Framework Environment
E. Kwee-Christoph, F. Feldbusch, R. Kumar, and A. Kunzmann

Enhanced Functionality by Coupling the JESSI-COMMON-Framework with an ECAD Framework
R. Seepold and A. Kunzmann
