ACM SIGSOFT

ACM SIGSOFT focuses on issues relating to all aspects of software engineering, providing a forum for computing professionals from industry, government and academia to examine principles, practices, education, and new research results in software engineering. In addition to CODES, SIGSOFT co-sponsors the International Conference on Software Engineering, the Foundations of Software Engineering conference and a variety of one-time and on-going workshops that bring practitioners, researchers, and educators together to discuss and debate timely issues. SIGSOFT publishes a bimonthly newsletter, Software Engineering Notes, which includes articles submitted by members as well as the popular forum "Risks to the Public", which describes software safety mishaps and concerns. For more information on SIGSOFT and how to become a member: http://www.acm.org/sigsoft.
