ASSISTANT PROJECT SCIENTIST POSITION
ORGANIZED RESEARCH UNITS (ORU)
CENTER FOR EMBEDDED COMPUTER SYSTEMS (CECS)
UNIVERSITY OF CALIFORNIA, IRVINE

The Center for Embedded Computer Systems anticipates a full-time research position in the area of system-level design of embedded systems. The candidate will participate in research projects involving system-level modeling, synthesis, verification and development of an environment for modeling embedded systems. Further responsibilities include research demonstrations and presentations, as well as collaborating with graduate students and faculty within the center. Applicants must have a PhD in Computer Science or Computer Engineering, with an emphasis on embedded systems research. Experience with SpecC, C and C++ is a must. Excellent programming skills are required. The salary range for this position is $74,900-$77,700 annually, commensurate with training and experience.

Interested applicants should forward a cover letter, curriculum vitae, and the names and addresses of three references to:

Grace Wu, Operations Manager
Center for Embedded Computer Systems
